

File Path traversal, simple case

This lab contains a [file path traversal](#) vulnerability in the display of product images.

To solve the lab, retrieve the contents of the `/etc/passwd` file.

-When you enter the site, then we click on one of the sub-pages

High-End Gift Wrapping

The Bucket of Doom

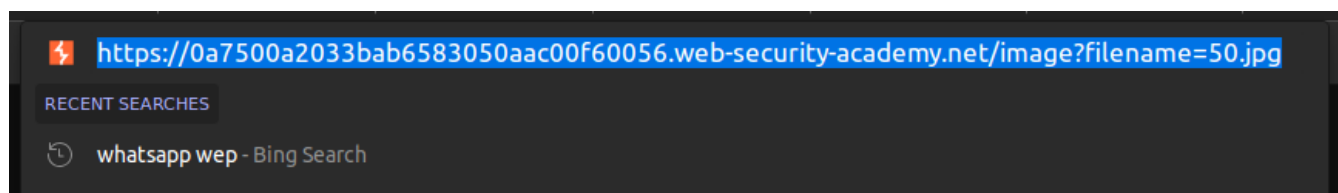

Waterproof Tea Bags

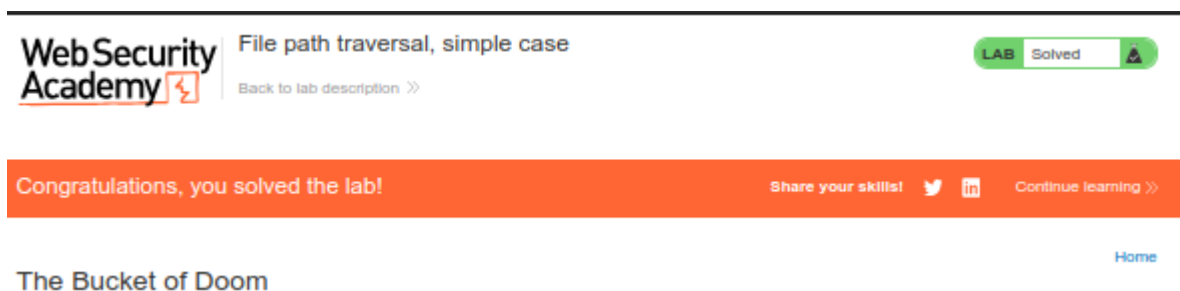

The Lazy Dog

-We will open one of the pictures on the site and then the following will be absent , Then We'll open the URL :

-We'll add it :
